- Balik Pulau, Penang

SKILLS

- ERP Architecture
- Full-Stack Dev
- AI/ML Integration
- System Design
- Team Leadership
- Python, TypeScript
- Nuxt, Vue, Vuetify
- Prisma, PostgreSQL
- FastAPI, REST API
- CI/CD, Linux
- Scikit-Learn, Pandas

EDUCATION

- UnjKL MIIT - B.Comp (Hons)
- CGPA 3.30
- Dean's List 2x
- Exchange: Yonsei Univ.
- Best FYP 2012

HIGHLIGHTS

- Built ERP replacing SAP
- 4 systems from scratch
- Led team as pioneer #1
- Exchange student Korea
- Best FYP award 2012

LANGUAGES

- Malay (Native)
- English (Professional)

WHO I AM

Self-taught engineer who built a complete ERP replacing SAP. 15+ years across finance, retail, education, recruitment tech, and palm oil. I build systems that solve real business problems.

Senior Software Engineer / Head of Software

GlobalIoT Sdn Bhd

- Architected and built EOIoT - a full ERP system replacing SAP/Navision for palm oil refinery operations (supply chain, finance, HR, procurement, operations)
- Led a team of engineers, established code review, CI/CD, and development standards
- Wore 7 roles: BA, PM, Architect, Developer, QA, Support Lead, Mentor
- Delivered for a government-linked client (Sawit Kinabalu / Kunak Refinery)

Web Developer

ePandu Sdn Bhd

- Built job portal with merchant subscriptions generating recurring revenue
- Built e-commerce platform (product management, payments, fulfillment)

E-Commerce Developer

GAMA Supermarket

- Built e-commerce platform from scratch for a major retail chain
- Managed the e-commerce department and cross-functional teams

IT Support Specialist

DISTED College

- Built library mgmt, ticketing, and knowledge base systems in-house
- Automated audit processes. Maintained ISO 9001 compliance.

Asst. IT Supervisor

GAMA Supermarket

- Led company-wide POS system deployment. Built ticketing and knowledge base systems.

Software Engineer

UniKL Resources Sdn Bhd

- Built financial system for MARA (government agency)
- Web services for e-Perolehan. Extended MS Dynamics AX.

AVAILABLE FOR

- Full-Time Senior Role
- Freelance Consulting
- Technical Advisory
- Remote (Worldwide)

PROJECTS

REFERENCES

Available upon request

EGOY | Enterprise ERP for Palm Oil

Full-scale ERP replacing SAP/Navision. Supply chain, finance, HR, procurement, refinery.
Stack: Nuxt, Vue, Python, Prisma, PostgreSQL

TradeAI | AI Forex Trading System

ML-powered forex prediction. Generates BUY/SELL probabilities from historical data.
Stack: Python, FastAPI, Scikit-Learn, Pandas

EMS | Engineering Management SaaS

Platform for managing teams, projects, and delivery with engineering standards.
Stack: Nuxt, Vue, Vuetify, Prisma, TypeScript

Second Brain | AI Knowledge System

AI processing 125K+ documents with semantic search, knowledge graphs.
Stack: Python, ChromaDB, LLM, FastAPI, SQLite

WHY HIRE ME

I replaced SAP with a custom ERP. I built 4 production systems from zero. I have 15 years of self-taught engineering across 6 industries. I lead teams, architect solutions, and ship code that works. Most engineers write code. I build businesses.
