TOP SKILLS

- 2024 - PRESENT
 - ERP Architecture & Design
 - Full-Stack Development
 - AI / ML Integration
 - System Architecture
 - Team Leadership
 - Python / TypeScript
- 2022 - 2024
 - Nuxt / Vue / Vuetify
 - Prisma / PostgreSQL
 - FastAPI / REST API

EDUCATION

- 2021
 - UniKL MIIT - B.Comp (Hons)
 - CGPA 3.30 | Dean's List 2x
 - Exchange: Yonsei Univ. Korea
 - Best Final Year Project 2012

ACHIEVEMENTS

- Built ERP replacing SAP
- 4 production systems built
- Led team as pioneer employee
- Exchange student S. Korea
- Best FYP award 2012

LANGUAGES

- Malay (Native)
- 2012 - 2015
 - English (Professional)

VALUE PROPOSITION

15+ years building production systems from scratch. Built a full ERP replacing SAP/Navision for the palm oil industry. Expertise in enterprise architecture, full-stack development, AI/ML, and team leadership. I build systems that solve real business problems.

Senior Software Engineer / Head of Software

GlobalIoT Sdn Bhd

- Architected and built EOIoT - full ERP replacing SAP/Navision for palm oil refinery ops
- Led a team of engineers, established dev standards, code review, and CI/CD pipelines
- Wore 7 roles: BA, PM, Architect, Developer, QA, Support Lead, Mentor

Web Developer

ePandu Sdn Bhd

- Built job portal platform with merchant subscriptions generating recurring revenue
- Built e-commerce platform from scratch - product management, payments, fulfillment

E-Commerce Developer

GAMA Supermarket

- Built e-commerce platform from the ground up for a major retail chain
- Managed the e-commerce department and cross-functional coordination

IT Support Specialist

DISTED College

- Built library mgmt, ticketing, and knowledge base systems in-house
- Automated audit processes. Maintained ISO 9001 compliance.

Asst. IT Supervisor

GAMA Supermarket

- Led POS system deployment company-wide
- Built ticketing system and knowledge base improving efficiency

Software Engineer

UniKL Resources Sdn Bhd

- Developed financial system for MARA (government agency)
- Built web services for e-Perolehan. Extended MS Dynamics AX.

AVAILABILITY

Remote: Yes (Worldwide)
Relocation: Negotiable

REFERENCE

Available upon request

Customised ERP for Palm Oil

Full-scale ERP replacing SAP/Navision covering supply chain, finance, HR, procurement, and refinery operations.
Stack: Nuxt, Vue, Python, Prisma, PostgreSQL

DeepAI - AI Forex Trading System

ML-powered forex prediction system generating calibrated BUY/SELL probabilities from historical data.
Stack: Python, FastAPI, Scikit-Learn, Pandas

EMS - Engineering Management System

SaaS platform for managing teams, projects, and delivery with proper engineering standards.
Stack: Nuxt, Vue, Vuetify, Prisma, TypeScript

Second Brain - AI Knowledge Management

AI knowledge system processing 125K+ documents with semantic search, knowledge graphs, automated ingestion.
Stack: Python, ChromaDB, LLM, FastAPI, SQLite

WHY HIRE ME

I build production systems, not prototypes. I replaced SAP with a custom ERP. 15+ years of self-taught engineering across finance, retail, education, and palm oil. I lead teams, architect solutions, and ship code that works. If you need someone who understands both business and technology - hire me.
